Silently she watches, as the cars go by, The minutes turn to hours, and she tries not to cry.

It seems no one remembered, to come take her home, It's been years now, still she waits alone

D F D  
A young boy begs for money, on the corner of the street, I see him almost everyday  
F D C  
but our eyes never meet, I wonder where you came from, I wonder where you'll go  
G D  
I wonder if you disappeared, if anyone would know

\* You were hungry, you were thirsty, you were lonely and afraid  
C G D  
You were crying and no one heard you, you were dying and no one came

D F D  
I'll never forget you, Your face is etched on my mind, You held out your hand,  
F D F  
and I just tossed you a dime. Sitting on the sidewalk, with those eyes so blue  
C D  
I'd give anything for another chance, just to talk to you \*

Father forgive me, I know not what I do  
Em C G D  
When I walk through this life, when I walk right by you  
D Am7  
These faces and memories, these places I've been  
Em C G D  
Lord, help me to see you when I see them again \*
