

# Who Will Pray for You?

by Eileen Jahna

G-C                    G            Em                    C  
Jesus is coming soon, the rapture will come before you know  
G            C                    G            D  
We'll be taken up unto the Lord  
G            C                    G                    Em                    C  
If you can't hear His voice, if you won't call Him Lord  
                  G            D                    G  
Who will pray for you when I'm gone?

(Chorus)

G            C            G                    C            G  
Who will pray for you, who will pray for you  
                  C            G                    D  
Who will pray for you when I'm gone.  
                  C            G                    C            G  
Who will pray for you, who will pray for you  
                  Em            C                    G  
Who will pray for you when I'm gone.

G            C                    G  
Oh those walls you've built around you  
                  C                    G  
How I've prayed all these years  
                  C                    G                    Em                    C  
That these walls would tumble down, your disbelief to the ground  
                  G            D                    G            D  
And you'd see the Lord, and you'd call His name  
                  G            D                    G            C  
Won't you call His name? Won't you call His name?
