

# You Are My Song

by Chris Joyner & Jennifer Weippert

                  G                          D                          C  
My precious Savior You're the lover of my soul  
                  G                          D                          C  
You whisper to me the words that make me whole  
          Em          D                          G                          C  
So I kneel before You, in Your presence I will be  
          Em          D          C  
Your love has set me free

(Chorus)

                  C                  D          G  
You are my song, the life I breathe  
                  C                          G  
In You I find my spirit free  
                  G          Em                  D          C  
And oh to every night, You are the dawn  
                  G                          D                          C  
You are my light, You are my hope, You are my song  
  
                  G                          D                          C  
You touched my spirit and you lifted me from shame  
                                  G                          D                          C  
Your love knows no condition, there is healing in Your name  
                  Em          D                          G                          C  
You took my grief and sorrow upon that splintered tree  
          Em          D          C  
Your cross has set me free
